**LinkedIn:** https://www.linkedin.com/in/alifio-rasendriya-rasyid-3367531b9/

## ABOUT ME

From the first time I printed 'Hello World' on python, to creating my first game, website and even a simple speech recognition program, that thrill in creating and developing, as well as the satisfaction you get when your program / website is finally up and running is something that I find exciting and thrilling. As a young computer scientist just starting his career, I believe that I have that fire that will help me to yet learn new things, solve more problems and build more applications.
